

# HISHAN ABEYSIRIWARDANA

## Software Engineer

I am an enthusiastic and proactive individual looking for a role as a Software Developer. With a solid foundation in software development and design, I bring strong problem-solving skills and attention to detail to everything I do. I am a team player who values collaboration but can work independently with minimal supervision. I am looking for a role where I can build on my experience while contributing value to your organization.

## WORK EXPERIENCE

### Swadisht Italian Pizzeria

MAY 2024 – APRIL 2025

IT Executive

- **Enhanced Online Presence** by optimizing and maintaining the restaurant's website, improving functionality and search rankings through SEO strategies.
- **Strengthened Brand Identity** by designing marketing materials with consistent and visually appealing brand presence.
- **Improved Operational Efficiency** by providing IT support, minimizing technical disruptions and ensuring smooth daily operations through effective system management and IT policy enforcement.
- **Increased IT Security** by leading training sessions on IT best practices, equipping employees with essential technical skills and reducing common IT-related issues.

### Kasper Global Pvt Ltd

JULY 2022 – JANUARY 2023

Junior Developer

- **Increased User Engagement & Control** by developing interactive dashboards for smart home systems using React, Angular, Bootstrap, and JavaScript, enabling real-time data visualization and seamless user interaction.
- **Enhanced System Reliability & Performance** by identifying and resolving bugs, ensuring smooth application functionality across multiple browsers and devices.
- **Improved Usability & Customer Satisfaction** by designing intuitive, user-friendly interfaces with Figma and Photoshop.
- **Accelerated SDLC** by collaborating with senior developers, following best coding practices, and optimizing development workflows for faster delivery.
- **Reduced Debugging Time** by documenting errors, troubleshooting steps, and best practices.

### Don Bosco International Media Academy

APRIL 2021 – JUNE 2022

Web Developer

- **Delivered High-Quality Web Applications** by collaborating with an Agile Scrum team, ensuring timely and efficient project completion.
- **Built a Scalable Backend** using PHP and MySQL for a Student Management System, ensuring secure data handling and smooth system operations.
- **Optimized Payment Processing** by integrating a secure payment gateway, enabling hassle-free online student fee transactions.
- **Enhanced Application Performance** by designing REST APIs for seamless front-end and back-end communication, improving system efficiency.
- **Improved UI/UX & Visibility** by developing a dynamic Angular-based application with SCSS, JavaScript, and Bootstrap, ensuring a responsive user interface and better SEO rankings.
